

Medico Clinic Software

Software for advance & Paperless Clinical Practice

❖ FEATURES AND MODULES ❖

- * Useful for General Practitioners, Surgeons, Gynecologist, Small to big hospital, Nursing homes, and all Physicians.
- * Easy to use patient visit details (OPD/IPD) modules.
- * Appointment Scheduler
- * Patient Registration
- * Clinical Modules
- * Indoor Management
- * Billing and account manager for your accounting needs.

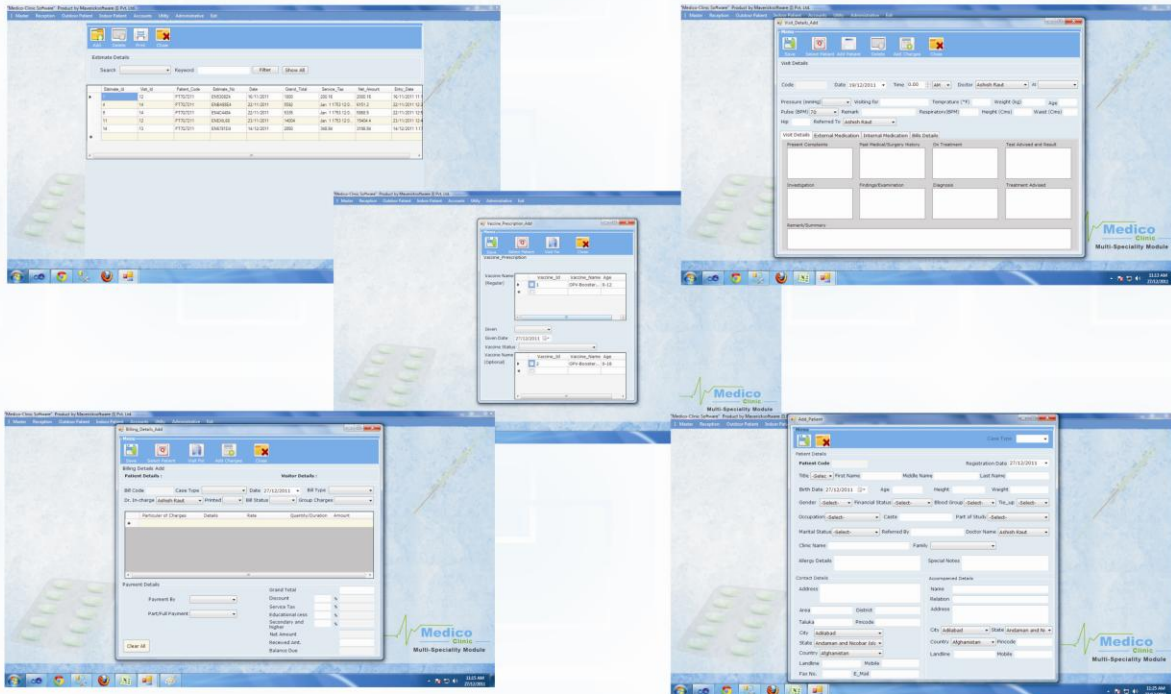

❖ STAFF SATISFACTION ❖

- * Information within the automated file is complete and legible.
- * There's no more searching the paper file page by page.
- * Your staff will spend less time filing and tracking down and managing files.
- * Enhances patient and document workflow.
- * Since the patient file is clearly organized, quickly pinpoint the exact information you need at that moment. Using Medicoclinic, physicians can spend less time on documentation and spend more time on patient care.

❖ PATIENT SATISFACTION ❖

- * Reduces waiting time and enhances patient care by providing staff with accurate and timely patient information.
- * A real time record is available to the patient's primary care physician resulting in proper continuation of care.
